Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed July 29th, 2005 has been reviewed and a copy including the examiner's notation is attached for the Applicants records.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-26 are rejected under 35 U.S.C. 102(e) as being anticipated by Gatto et al (US 6,908,391).

Claims 1-6 and 14-19: Gatto teaches a gaming apparatus and method for providing accounting and auditing features in a gaming environment.

The invention of Gatto further includes:

- publishing the availability of an accounting service on a network;
- receiving a discovery request for the accounting service;
- registering by a game client/machine (Figure 3) with the accounting service; and

processing one or more accounting service requests between the gaming client and the

Art Unit: 3714

accounting service in compliance with a Web Services Description Language (WSDL) and a UDDI registry (Col 15:22-16:11).

Claim 7 and 20: Gatto further teaches gaming clients or peripherals serve both as service requestors and service providers (Col 15:15:57-67).

Claims 8-13 and 21-26: Gatto teaches the use of the use of the web services technologies as taught above as incorporated into a cashless gaming device wherein the accounting and auditing services are initiated with a player identification at a game client from a start request as so claimed, conducted through the player's interaction with the client, and terminated when the player leaves the machine (Col 6:19-23, 6:35-37, 7:10-16, 9:66-10:65). As presented this correlates to the claimed request for the accounting service initiation, request for accounting service termination, and the posting/updating of accounting information reflective of game play.
